U.S. Patent and Trademark Office PTOL-303 (Rev. 4-05)

Continuation of 3. NOTE: Applicant's propsed amendment, particulary claim 29, fails to further limit what is "adsorbent". It is not clear whether the scope of the claimed composition includes simethicone and adsorbent, further comprising magnesium aluminometasiliate and silicified microcrystalline cellulose. The interpretation of the composition comprising simethicone and an adsorbent, further comprising comprising magnesium aluminometasiliate and silicified microcrystalline cellulose reequries further consideration and search. If applicant is intended to limit magnesium aluminometasilicate and silicified microcrystalline cellulose as the adsorbent, claim 29 should be amended as "an adsorbent selected from the group consisting of magnesium aluminometasilicate and silicified microcrystalline cellulose".
